✓ Diopter Adjustm	+ 2 / - 6
✓ Weather Resistant	Waterproof up to 3' up to 30 min
✓ IR Illuminator	Yes
✓ Battery Type / Life	AA (x2) / 40 hours (Min)
✓ Weight (Oz)	24

The EO-7 is a high quality mono tube, bi-ocular night vision goggle system providing hands-free operation at low light conditions.

The EO-7's lightweight injection molded plastic housing and optical components are precisely crafted by a leading manufacturer of Night Vision equipment.

The Generation II+ image intensifier tube features Automatic Brightness Control (ABC). Additional features include IR-On and Low-Battery Indicators. Image clarity is achieved by focusing the front objective while each eyepiece can be independently adjusted for eyesight correction.

The fully adjustable headgear provided allows the EO-7 to be flipped-up or quickly detached from the mask. An IR illuminator is integrated into the system for use in extreme low light conditions. Optional Long Range objectives convert the EO-7 into a useful field binocular.

System comes complete with headgear, soft carrying case, batteries, and user's manual. System is covered by one-year limited warranty.
